

MADHU CHOPRA (INDIA)

E-Mail: chopramm5@gmail.com

Dr. Madhu Chopra is a powerhouse in her own right... a family physician and an ENT surgeon, she is now a renowned cosmetic aesthetician with a private clinic in Juhu, Mumbai. Dr. Chopra has travelled across the globe to learn and master the many procedures of cosmetic surgery and its ever-changing technology. She excelled scholastically and has a string of illustrious academic achievements.

She was a medical practitioner in the Armed Forces for a major part of her professional career. When Priyanka was crowned Miss India, and then Miss World, Dr. Chopra gave up a thriving practice and moved to Mumbai to allow her daughter every opportunity to pursue her dreams. This also led to her managing the formative years of her career, while also being an advisor, directly handling all the financial aspects of her life. This experience has equipped her with the skills necessary to successfully run a production house.

While Ms. Priyanka Chopra Jonas makes the creative calls at Purple Pebble Pictures, Dr. Chopra is the financial whiz and handles the business side of things. Together, they are a force to reckon with!

Dr. Madhu Chopra has a vision to give platform to people looking to establish themselves in the film industry. She always had a special inclination for children films

The Film named "Pahuna-The Little Visitors" was made in association with Children's Film Society of India (CFSI) and Dr. Madhu Chopra was the pioneer in forming this professional tie-up. Pahuna was showcased in many international film festivals like Toronto International Film Festival (TIFF), Cannes Film Festival, Schlingel Film Festival, Busan International Kids & Youth Film Festival, etc. She has also ensured commercial viability and worldwide visibility of the film by striking a deal for showcasing the film on Netflix OTT platform.

She has produced several other regional movies in Marathi, Punjabi, Assamese, etc. Our Marathi Films have also bagged National Awards amongst several other accolades which we have received over the years. Currently she is foraying into Digital space and producing a digital show in association with Netflix. The joint vision and divided responsibilities between Ms. Priyanka Chopra and Dr. Madhu Chopra has been the key to her success and satisfaction which each and every one working with her has experienced. The production house in her able guidance is also working on some other children projects and will surely ensure that she keeps spreading good stories across the globe through this medium.
