

2020: Back to the Future

as a theme for the anniversary 60th Zlín Film Festival

The section aims to broaden the horizons of young visitors in the area of science and technology. The films will be dramaturgically divided into three groups: documentary films on science and technology, live-action sci-fi films for young audience, and a section devoted to visual film effects.

The Zlín Film Festival – International Film Festival for Children and Youth is the oldest and, currently, largest film festival of its kind in the world. The festival's mission is to present a wide range of high-quality international film productions for children and teenagers and to make them accessible to a young audience. An important aspect of the festival is to develop the young audience's aesthetic, social, and moral feelings, and to expand their awareness of the outside world. Every year the festival welcomes more than 100,000 visitors, hosts numerous international film delegations presenting their creative work, and attracts children's film professionals from around the globe. The aim of the program is to contribute to the development of Czech cinema for children and youth. The organizer of the festival is the company FILMFEST, s.r.o.
